Experience

GooApps (Nov 2018 – Sept 2019)

Mobile applications developer

Multiplatform mobile apps development using technologies such as Ionic and React Native, and web applications development for data treatment using Symfony.

Real Grupo de Cultura Covadonga (Sept 2017 - Jun 2018)

Tutor Servicio de Apoyo al Deportista (SADE)

Study tutor for students from 6 to 18 years old, helping them with their homework and studies, as well as teaching them studying routines and methods in order to help them improve their academic results.

Studies

Sound and Music Computing Master Degree
(Sept 2019 – Jul 2020)

Master degree studied in Universidad Pompeu Fabra of Barcelona, focused in the study of different technologies applied to the treatment and creation of sound and music, both in the software development field and in the recording and perception of music

Software Engineering University Degree (Sept 2015 – Jun 2019)

University degree studied in Universidad de Oviedo, specializing myself in mobile applications development and augmented reality.

Certificate in Advanced English (Mar 2015)

Passed the C1 exam on advanced English held by the University of Cambridge
